

**REMARKS/ARGUMENTS**

Entry of this response and reconsideration and allowance of the above-identified patent application are respectfully requested. An information disclosure statement was submitted with the previous response. The Examiner is requested to consider the references identified therein.

Claims 1, 36, and 45 have been amended to clarify the claims and to correct minor errors associated therewith. No claims have been added. Claims 40 and 51 have been canceled.

In response to the restriction requirement under 35 U.S.C. § 121 in the office action dated June 11, 2008, Applicant elects Species IV, corresponding to Figure 6 and which consists of claims 1, 3, 4, 6, 14-18, 20-24, 27-29, 33-39, 41, 43-46 and 50 without traverse. Applicant respectfully submits that many of these claims, especially the independent claims, are not limited to the example embodiment of Figure 6 and, further, may also read on other figures of the present application.

It is Applicant's understanding that this election is being made to aid the Examiner in conducting a search and examination of the claimed subject matter, and is not to be construed as limiting the scope of Applicant's claims.

The present application is believed to be in condition for examination on the merits. Favorable examination leading to early allowance of this application is earnestly solicited.
